I've served on the Board since Fall 2009 as a Director and would consider it an honor to maintain my current position. Before teaching I worked in the banking industry for 14 years. I have two Bachelor of Science degrees: psychology and biology. I also have a Masters of Arts degree in secondary education. I am married and have 2 children who are 7 and 4 years old.

Ed has a passion for landscaping and design, which has been his extra curricular activity since 1975.
